"I've loved the films of Yuri Norstein for years now. I first saw 'Hedgehog in the Fog' as a film student in the early 1980s and became instantly enchanted. Like many I was immediately drawn into his sensual world by the richness of the aural and visual landscapes he creates. Norstein's films are magical and atmospheric, lovingly and masterfully executed. His story-telling and illustration style is earthy and rich in symbols which are beautiful in themselves – but one senses there is a lot more hidden behind them." **Nick Park, The creator of Wallace and Gromit and Chicken Run and four times Oscar-winner**
